- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Tailwind CSS
- Context API
- React Router
- REST API Integration
- Axios
- Responsive Web Design
- Git / GitHub
- Redux
- Redux Toolkit

Summary

Frontend Developer with hands-on experience building responsive, user-focused web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Skilled in component-based architecture, state management with the Context API, React Router, and integrating REST APIs for dynamic, data-driven interfaces. Experienced in building frontends for booking, e-commerce, and media-streaming platforms. Eager to contribute to real-world projects and grow as a professional frontend developer.

Education

Deenbandhu Chhotu Ram University of Science and Technology, Murthal

Master of Computer Applications (MCA)

HARYANA, INDIA | AUG 2024 – PRESENT

Deenbandhu Chhotu Ram University of Science and Technology, Murthal

Bachelor of Computer Applications (BCA)

HARYANA, INDIA | JUL 2021 – JUN 2024

Experience

React.js Frontend Intern

Trigya Innovations India Pvt. Ltd - 2 Months

- Developed responsive and user-friendly web applications using **React.js, JavaScript, HTML5, and CSS3**.
- Created reusable React components and implemented **state management** for interactive UI features.
- Integrated frontend applications with **REST APIs** to fetch, display, and manage dynamic data.
- Worked on UI development based on design requirements and improved overall user experience across different screen sizes.
- Debugged and resolved frontend issues while collaborating with the development team.
- Used **Git/GitHub** for version control and participated in the software development workflow.

Projects

StayIndia – Hotel Booking Platform

React, CSS, Axios, Clerk, Cloudinary

- Built a fully responsive React frontend for a hotel booking platform, letting users search, view, and book hotel rooms.
- Implemented Clerk authentication and payment flows on the client side for a seamless booking experience.
- Consumed REST APIs with Axios to dynamically fetch and render hotel, room, and booking data.
- Handled Cloudinary-hosted image rendering and built reusable, mobile-friendly UI components.

Sai Hydraulics – JCB Spare Parts E-Commerce Platform

React, CSS, Axios

- Developed a responsive frontend covering product catalog, categories, cart, wishlist, and orders.
- Integrated REST APIs for authentication, product browsing, cart, wishlist, and order placement.
- Built reusable UI components for product listings, filters, and customer reviews.

YouTube Clone

React, Context API, React Router, Third-Party Video API

- Built a frontend clone with video feed, search, playback, suggested videos, and category navigation.
- Integrated a third-party API to fetch live video content across Home, Search, and Video Details pages.
- Implemented shimmer loading, offline/error handling, Context API, and React Router for state and navigation.

Certifications

- Delta – Full Stack Web Development, Apna College (Instructor: Shradha Khapra)
